Disability care, Aged care, NDIS, HACC, CHSP, SIL...

Whatever it is you are trying to juggle… we can help.

EASY EMPLOYER

Rostering, time & attendance, award interpretation, payroll…

Whether you are the manager or administrator or owner of a care provider administering your workforce will be one of the most *frustrating... costly… error prone... time consuming… stressful...* things you'll have to do.

This has all been made even more difficult with the introduction of the NDIS and its tracking and reporting requirements. Using your team effectively and efficiently has now become vital to business viability.

Managing staff doesn't have to be a burden... we can automate the mundane.

Now you can have a powerful yet easy to use, reliable, online, software solution to take care of all those important but frustrating staff admin tasks from rostering all the way through to payroll… and more.

Implementing technology to assist workforce management is vital but if you've ever looked at what's out there for rostering / time and attendance / payroll / client management, well it's rather confusing.

There are many products available - some good, some not - but most of which are simply not powerful enough to deal with the unique requirements and demands of the community care sector.

The solutions we offer for care providers are:

- **Industry Specific** – we provide solutions that are geared to the care provider environment and fulfilling NDIS requirements.

- **Powerful** – our solutions can do things and integrate into things that others can't or don't, or simply won't.

- **Flexible** – our solutions are customisable to your needs.

- **Stackable** – all in one solutions are typically shallow in functionality. Our products are purpose built and they integrate into others. You get a streamlined solution but with the benefits of state of the art products.

- **Cost effective** – you pay for what you need and nothing more.

- **Backed up by superior services** – you will have a dedicated team of experts always there to offer you the level of services and support you require.

> "We are using Easy Employer to roster our volunteers and keep resources required to manage them to a minimum.
>
> *The burden of rostering has been lifted* and now we can spend more time on activities that help to serve families in their time of need."

Easy Employer Makes Workforce Management Easy for Care Providers.

✓ **Automatically account for rostering considerations** - availability, leave, skills, qualifications, requirements etc.

✓ **Quickly build accurate & compliant rosters in minutes** - linking to client care plans.

✓ **Efficiently roster & route plan** - using locational data i.e. client locations & travel distances.

✓ **Easily backfill a shift in minutes** - find best possible replacements in minutes using sophisticated suitability ranking techniques & SMS/email.

✓ **Reference labour cost and revenue when matching employees** - ensuring desired gross profit margins on any given service.

✓ **Communicate requirements & tasks to staff** - including multiple shifts, clients & locations.

✓ **Precise locational tracking of care workers** - for time, OH&S, security & auditing purposes.

✓ **Automatically calculate allowances** - travel, first aid, meal, split shift & more.

✓ **100% accurate pay rate application** - awards (i.e. SCHADS), EBAs & agreements.

✓ **Automatically import to payroll** - eliminate manual data entry, error & processing overheads.

✓ **Automatically create invoices** – from client, service, appointment and funding scheme data …no duplicate data entry required.

✓ **Option for fully managed payroll** - including automated payment of Wages, Superannuation, PAYG, State Payroll Tax, WorkCover and full deduction management with reports available per process and EOM.

✓ **Option for in-house cloud payroll / HR solutions** - to suit SMEs right up to large / enterprise organisations.

✓ **Utilise flexible and powerful reporting to assist with NDIS requirements** - ensure efficiency and financial sustainability for any given location, client or service.

✓ **PLUS: Integration with your chosen CMS** to track times, locations & tasks for client reporting requirements, including NDIS online portal integration.

We get results for our clients...

Up to 90% of time spent managing staff
= *cut.*

Up to 10% of annual labour costs
= *saved.*

Accuracy & compliance
= *achieved.*

Financial viability & sustainability
= *attained.*

Easy Employer Rostering with Award Interpretation (AI) included Solution Architecture

Provides the full rostering solution with real time award interpreted shift costing integrated with CMS solutions to allow appointment, client and service details to be included with shifts. Integrated HR and Payroll applications can be included to provide a holistic solution for our clients.

Easy Employer Award Interpretation (AI) only Solution Architecture

Provides the ability to integrate with third party scheduling applications to import shifts and apply award conditions and export interpreted timesheets into a third-party payroll application.
